While there are linkages between substance misuse and community mental health services, without the likes of a community psychiatric liaison nurse, it is difficult to ensure tight transfer of patients between services and appropriate follow up for this difficult to engage and follow group. Based on current needs assessment one mental health liaison nurse per LHO area would be required to fully implement this recommendation.

<b>Date 12<sup>th</sup> January 2010</b>	Completed by:
<b>Chapter 18</b>	<b>Recommendation 18.11</b>

**CHAPTER 18 - Manpower, education and training** A personal training and development plan or equivalent should be introduced for all grades of staff in the mental health services. This should help managers set priorities for the use of resources in order to meet common needs more efficiently, organise staff release and target and schedule in-house education and training. In this regard it is also important to make available clear information about routes to employment training and career progression within the mental health service.
