Chapter 7 Mental health in primary care;

The education and training of GPs in mental health should be reviewed. GPs should receive mental health training that is appropriate to the provision of mental health services described in this policy (i.e. community-based mental health services). Service users should be involved in the provision of education on mental health.

| Date 13 th January, 2010 | Completed by: |
| Chapter 9 | Recommendation 9.1 |

Chapter 9 - The Community Mental Health Team (CMHT)

To provide an effective community-based service, CMHTs should offer multidisciplinary home-based treatment and assertive outreach, and a comprehensive range of medical, psychological and social therapies relevant to the needs of service users and their families. Each multidisciplinary team should include the core skills of psychiatry, nursing, social work, clinical psychology, occupational therapy. The composition and skill mix of each CMHT should be appropriate to the needs and social circumstances of its sector population.

| LOCAL Recommendations | |
|------------------------------|----------------------------|
| HSE REGION Dublin North East | Catchment Dublin North |
| Date 20/01/10 | Completed by: |
| Chapter 14 | Recommendation 14.1 |

CHAPTER 14 - Mental health services for people with intellectual disability The process of service delivery of mental health services to people with intellectual disability should be similar to that for every other citizen.

Recommendation Completion in this Area (Tick Box)

| | | | | | |
|--------------------------|--------------------------|------------------------------|-------------------------------------|--------------------------|--------------------------|
| Fully Implemented | <input type="checkbox"/> | Partially implemented | <input checked="" type="checkbox"/> | Not yet commenced | <input type="checkbox"/> |
|--------------------------|--------------------------|------------------------------|-------------------------------------|--------------------------|--------------------------|

Please tick

Please provide supporting factual Information

| |
|--|
| St Joseph's Intellectual Disability Service, Portrane is an Approved Centre in compliance with Mental Health legislation and the Regulation of the Mental Health Commission. |
| The Service employs two Consultant Psychiatrists who provide psychiatric consultation on campus and in the community |
| Service users have access to a Multidisciplinary Team (with the exception of a psychologist) however this team is not mental health specific. |
| The service has a balance skill mix of Registered Psychiatric Nurses (RPNs), Intellectual Disability Nurses (RNIDs), General Nurses (RGNs) and Health Care Assistants (HCAs) |
| The service has developed considerable expertise in the care of people with intellectual disability who have additional mental health and behavioural problems. |

Reason for partial completion / not yet

| |
|--|
| Lack of dedicated mental health resources in the Service (2 x MHID Teams) |
| Absence of acute mental health assessment and the range of facilities required for comprehensive mental health care for people with intellectual disabilities. Hence the service does not provide a range of setting based mental health therapies or interventions. |
| Completion Date: |

| |
|--|
| Revised Timescale (commencement and completion dates): |
|--|

Please share the key learning points which have evolved in the implementation of this recommendation

| |
|--|
| The demography of service users is disproportionately high in terms of individuals with complex needs. Currently the Service provides care for individuals who have behavioural difficulties and mental health problems, individuals with generic intellectual disabilities and a sizeable proportion of elderly individuals many of whom have mental health difficulties. |
|--|

Recommend key issues for the consideration of the Independent Monitoring Group

| |
|--|
| The immediate establishment of 2 dedicated MHID teams separate from the multidisciplinary team currently in the Service. |
| The establishment of catchment area boundaries for Dublin North intellectual disability services |
| The establishment of acute, rehab/continuing care and respite mental health beds and day hospital places for people with intellectual disabilities |

Thank You

Vision for Change Independent Monitoring Group Report for Jan 2010

| LOCAL Recommendations | |
|------------------------------|----------------------------|
| HSE REGION Dublin North East | Catchment Dublin North |
| Date 18/01/10 | Completed by: |
| Chapter 14 | Recommendation 14.2 |

CHAPTER 14 - Mental health services for people with intellectual disability

Detailed information on the mental health of people with intellectual disability should be collected by the NIDD. This should be based on a standardised measure. Data should also be gathered by mental health services for those with intellectual disability as part of national mental health information gathering.

Recommendation Completion in this Area (Tick Box)

| | | | | | |
|--------------------------|--------------------------|------------------------------|----------|--------------------------|--------------------------|
| Fully Implemented | <input type="checkbox"/> | Partially implemented | X | Not yet commenced | <input type="checkbox"/> |
|--------------------------|--------------------------|------------------------------|----------|--------------------------|--------------------------|

Please tick

Please provide supporting factual Information

The Service has started to gather service user data using a hierarchical approach within the Multi – Axial Diagnostic framework using the DC-LD (Diagnostic criteria for psychiatric disorders for use with adults with learning disabilities / mental retardation). This will support the development of robust campus and service wide service user data base.

Reason for partial completion / not yet

Data gathering began in 2009 and is ongoing

Completion Date:

Possibly mid to late 2010

Revised Timescale

(commencement and completion dates):

Please share the key learning points which have evolved in the implementation of this recommendation

Time is needed for clinical staff to familiarise themselves with the operationalised criteria presented within the DC-LD Multi- Axial framework.

Recommend key issues for the consideration of the Independent Monitoring Group

The establishment of a National Prevalence Study of Mental Health problems including Challenging Behaviour in the Irish population with intellectual disability to assist service planning.

|--------------------------|--|------------------------------|----------|--------------------------|--|
| Fully Implemented | | Partially implemented | X | Not yet commenced | |
|--------------------------|--|------------------------------|----------|--------------------------|--|

Please tick

Please provide supporting factual Information

The service has a number of groups currently in operation which promote mental health and well being such as Advocacy and Bereavement. The Day Services provide a range of social skills programmes which indirectly promote mental health through social inclusion and community participation. In addition, self advocacy is promoted to support the development of self esteem, life and coping skills.

Reason for partial completion / not yet

The Service is working through its Day Service programme to expand the vocational and occupational activities to embrace the material well being of service users
The absence of primary mental health promotion activities driven by a specific mental health MDT team

Completion Date: 2010

Vision for Change Independent Monitoring Group Report for Jan 2010

| LOCAL Recommendations | |
|-------------------------------------|-----------------------------|
| HSE REGION HSE DNE | Catchment North Dublin |
| Date 14 TH January, 2010 | Completed by: |
| Chapter 18 | Recommendation 18.11 |

CHAPTER 18 - Manpower, education and training A personal training and development plan or equivalent should be introduced for all grades of staff in the mental health services. This should help managers set priorities for the use of resources in order to meet common needs more efficiently, organise staff release and target and schedule in-house education and training. In this regard it is also important to make available clear information about routes to employment training and career progression within the mental health service.
